sort -n <file_name>
```

5)Copee is a hard-working cop. He found a case and almost at the verge of cracking it. It could be his best breakthrough. He has the list of criminals but lots of duplicates are there. He needs to find the only one that is different. He sought your help. How will you sort this issue?

```
sort -u <file_name>
```

## 6)What are the Three parts of file's permission?

- 1)The read permission grants the ability to read a file. ...
- 2)The write permission grants the ability to modify a file. ...
- 3)The execute permission grants the ability to execute a file.
